WHY SWINDON:

Swindon offers an outstanding combination of strategic location, excellent transport links, a skilled workforce and a strong business community. Positioned between London, Bristol and the wider South West, it provides businesses with access to key markets while benefiting from lower operating costs than many larger cities. The town continues to attract investment across technology, logistics and advanced manufacturing, making it an ideal location for organisations looking to grow within a collaborative and forward-thinking business environment.

Business Information	nLighten is a European edge data centre platform providing secure, sustainable and highly connected colocation services that enable organisations to host critical IT infrastructure close to their customers and operations. Our Swindon data centre delivers resilient power, connectivity and low-latency access for businesses across the Thames Valley, South West and London corridor. We help organisations accelerate digital transformation, improve business continuity, support AI cloud workloads, and build resilient future-ready IT environments.

WHAT WE OFFER:

nLighten supports organisations of all sizes, from growing regional businesses to international enterprises, by providing secure, resilient digital infrastructure from our Swindon facility. Our services help customers modernise their IT, improve resilience, deploy cloud and AI solutions, and maintain business continuity. As new organisations invest in Swindon, we can provide the local infrastructure, connectivity and technical expertise needed to support growth, minimise risk and enable long-term digital success.

“ Swindon’s location, infrastructure and ambitious business ecosystem make it an excellent destination for investment. We are proud to be part of its continued growth and to provide the digital infrastructure that helps businesses thrive. ”
Dame Dawn Childs DBE FREng, Chief Executive Officer, nLighten
